Game Features

WILD FIESTA! HR 1/45

Wild Fiesta is triggered at random upon landing Maraca Wilds. During this feature, Wilds transform symbols to their left into additional Wilds. When the Wild goes over another it become a multiplier wild.

CHILLI INFERNO RESPINS HR 1/166

Trigger Chilli Inferno by landing 3/4/5 Scatters and get 3/4/5 lives, respectively.

Game Description

Prospect Gaming turns up the heat with fiery, chilli fuelled wins in Arriba Heat!

Starting off in the base game, the Wild Fiesta feature gets activated at random when landing Wilds. During Wild Fiesta, the Wilds slide across the symbols to their left transforming them into additional Wilds. If the Wild encounters another Wild on its path, it becomes an X2 Wild, giving even higher payouts!

When Chilli Inferno respins gets activated, Mr Peppe gets a central position on the board, collecting every chilli landed. Players lose a life whenever no chilli is landed.

Chilli Inferno comprises three levels. In the first level, Mr. Peppe must collect chillies with a total value of 20 to progress. In the second level, chillies of 50 total value must be collected to unlock the third level. The value of chillis on the second level is multiplied by X2 and on the third by X3. A multiplier will be added for every total of 50 on the third level. Mr. Peppe's symbol expands from 1x1 to 2x2 and ultimately to 2x3 as he advances through each level.
