## Game Features

### EXPANDING WILDS

1/70 HR

The Wilds can expand to collect Coins if a Wild and two H&W symbols (coin or diamond) appear on the same reel.

### HOLD & WIN

1/85 HR

Players can trigger Hold and Win respins by landing six or more Coins in the base game or Freespins.

### FREESPINS

1/193 HR

Landing three or more Scatters triggers Freespins from which players can enter a higher payout hold and win game if six coins are landed.

## Game Description

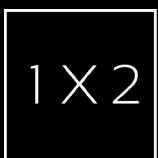

Iron Dog Studio's Branded Hold & Win is a 5-reel slot with customization options for casinos.

Landing six or more Coins activates Hold & Win, granting three respins. Each new Coin landed resets the respins.

During the Base Game, if a Wild and two H&W symbols (coin-coin or coin-diamond) land together on the same reel, the Wild expands paying out the Coins value. Coins can also turn into Jackpot Symbols, offering higher payouts if 3/4/5 of them are on the board.

Freespins are triggered by landing three or more Scatter Symbols. Landing more Scatter Symbols triggers additional Freespins. At the end of the mechanic, these Scatters transform into coins, increasing the chances of entering Hold & Win.

If the player enters Hold & Win while on Freespins, they are granted a higher payout.
