CASH STASH

Land the Golden Scatter and enter Cash Stash! In Cash Stash you're transported to a coin vault full of riches; the goal is to open as many lock boxes as possible.

Game Description

Mr Porky Banker takes players to his coin vault for a chance to win big! The richest piggy in town comes back in a brand new adventure featuring Freespins, a Cash Stash Pick-me Feature and an exciting new twist to the traditional Ante-bet feature.

Trigger Freespins by landing three Scatter Symbols. Keep your eyes peeled for the Golden Scatter. If the third Scatter is a Golden one, the Cash Stash feature gets activated.

The Cash Stash feature transports players into a coin vault filled with gold and precious gemstones! Depending on the number of Scatters landed the player is asked to unlock 5/8/15 lock boxes, with each box hiding amazing prizes (from cash prizes to additional picks).

Activate the Ante-bet for a better chance of triggering Cash Stash! The fifth reel gets locked and increases the chance of landing a Scatter Symbol. When three Scatters are landed during the base game and the Ante bet feature is activated the game instantly goes to Cash Stash and then Freespins.
