Game Features

COIN CAPTURE	Each special coin that lands will feed the pigs making them grow. Once a feature has triggered that pig will return to it's original size
HOLD & WIN HR 1/120	Landing 6 coins will activate Hold & Win, awarding 3 spins that reset with any additional coin landed.
FREESPINS HR 1/245	When 3 Scatters are landed they award 8 Freespins with the potential of randomly activating Hold & Win within Freespins by landing coins!

Game Description

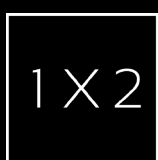

Are you ready for a porky feast with 3 Porky Banks Hold and Win? Iron Dog Studio's new 5x3 reel grid slot with 25 pay lines.

Each Porky Bank Hold and Win brings unique bonus game features - the blue multiplies all values by x2, the purple can turn coins into 15x/30x/50x/75x/100x multipliers or jackpots and red collects all the values from the reels. These features can also be triggered simultaneously, increasing the chances of big wins. The Porky Banks grow larger as they collect coins, adding to the excitement.

And that's not all - landing 6 coins triggers H&W awarding 3 spins that reset every time a new coin lands and featuring mini, major and mega jackpots (15x/50x/150x).

The game heats up with Freespins, where all winning combinations that include Wilds are paid with a 2x multiplier.

Join the 3 Porky Banks in this fantastic slot that guarantees a thrilling gaming experience.
